

20.11

DRAFT PROGRAMME OF THE INTERNATIONAL COMPOSITE FORUM

Time	Exhibition zone	Scene 3 rd floor	Grand Hall of cultural centre	Library reading room	Department (9th floor)	Rooms 312	Rooms 316	Conference hall
8:30								
9:00								
10:00	International championship on composites «Composite Battle VR»			Session 2. "Smart" composite materials and composites for biomedical application		Session 6. Mechanics of composite materials and structures	Round table discussion "Innovative composite materials - practice and basis of the industry and urban environment of the future"	Session 5. Composite materials for rocket and space applications
10:40		Arctic research centre agreement signing						
11:00			Plenary session (part 1)					
12:00			Plenary session (part 2)					Roundtable discussion «Materials and technology for the Arctic region»
13:00								
13:30								
14:00	Workshop on composite materials							Session 1. Polymer Composite Materials: Technologies and Implementation
15:00	Workshop on composite materials			Session 3. Advanced metal matrix composites	Session 8. Modelling in composite science	Session 4. Physical and technological maintenance of the quality of composite materials products	Session 9. High Temperature composites: theory, practice, experiments	
16:00		Session 7. Composites industry and digital material science						
17:00								Roundtable discussion «Specialists training for the composite industry»
18:00
